PROFESSIONAL SUMMARY

Highly motivated Computer Science student with hands-on experience building scalable full-stack web applications using the MERN stack. Consistent academic performer with ~9 SGPA. Passionate about creating impactful user experiences through clean, maintainable code. Seeking a Web Developer Internship to contribute, learn, and grow in a fast-paced environment.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js
Backend	Node.js, Express.js, REST APIs
Database	MongoDB
Tools	Git, GitHub, VS Code, Postman, Vercel, Render
Languages	JavaScript, Java (Core)

PROJECTS

SchemeSathi | [MongoDB](#) · [Express](#) · [HTML](#) · [CSS](#) · [JS](#) · [Node.js](#)

A full-stack platform that helps citizens discover eligible government schemes through a smart, filter-based search system.

- Implemented dynamic multi-filter search (state, category, income) reducing relevant scheme discovery time significantly.
- Built secure user authentication with JWT and bcrypt for session management.
- Designed a responsive React frontend with real-time filter updates and intuitive UX.

CodeZenith | [MongoDB](#) · [Express](#) · [React](#) · [Node.js](#) · [Socket.io](#)

A competitive coding platform featuring real-time leaderboards, timed problem-solving, and live contest support.

- Developed a real-time leaderboard using Socket.io, updating scores live during contests.
- Integrated a code editor with syntax highlighting and submission validation against test cases.
- Designed scalable REST APIs for problem CRUD operations and user performance tracking.
- Implemented role-based access control for admin (problem setter) vs participant views.

AgriGuard | [React](#) · [Node.js](#) · [Python](#) · [Machine Learning](#)

An AI-powered plant disease detection system that identifies crop diseases from images and provides preventive recommendations.

- Integrated a trained ML model (Python/Flask) with a MERN stack frontend via REST API.
- Built an image upload flow with real-time disease classification and confidence scoring.
- Provided disease-specific prevention and treatment suggestions for 10+ crop diseases.
- Designed a farmer-friendly, mobile-responsive interface to maximize rural accessibility.

EDUCATION

B.E. Computer Science / IT PRMCEAM-Bandera, Maharashtra	CGPA: ~ 9.0 / 10	2023– Present
12th Grade (HSC) Sunrise Dnyanpeeth Jr. College Of Science in Sasti, Maharashtra	83.5%	2023
10th Grade (SSC) Shri Jageshwar School and Junior College in Wadegaon, Maharashtra	71.0%	2019

CERTIFICATIONS & COURSES

- Programming in Java with Data Structures & Algorithms – NPTEL
- Web Development Certification – EduSkills
- Cybersecurity Virtual Internship (Palo Alto Networks Supported)
- Continuous Learning through Online Courses & Technical Workshops

Available for immediate internship | Open to remote and on-site opportunities
